

Pai Siong WANG

NO. 00000000000000000000000000000000

NAME: PAI SIONG WANG

Gender:
www.pai-siong-wang.com

No. 00000000000000000000000000000000
Working since 1980
Location: 00000000000000000000000000000000

Education:

University of Technology Malaysia
Department of Mechanical Engineering
1980-1984
BSc

2000-2001: Graduate Diploma in Engineering
1984-1985: Diploma in Mechanical Engineering
1985-1986: Bachelor of Science in Mechanical Engineering

1986-1987: Master of Science in Mechanical Engineering
1987-1988: PhD

1980-1981

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1981-1982

1981-1982: Graduate Diploma in Engineering (Mechanical)
1982-1983: Bachelor of Science in Mechanical Engineering

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1983-1984: Master of Science in Mechanical Engineering

1984-1985: PhD

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1985-1986: Graduate Diploma in Engineering (Mechanical)
1986-1987: Bachelor of Science in Mechanical Engineering

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1987-1988: Graduate Diploma in Engineering (Mechanical)
1988-1989: Bachelor of Science in Mechanical Engineering

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1989-1990: Graduate Diploma in Engineering (Mechanical)
1990-1991: Bachelor of Science in Mechanical Engineering

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.

1991-1992: Graduate Diploma in Engineering (Mechanical)
1992-1993: Bachelor of Science in Mechanical Engineering

was the first person to develop a computer program for the design of a mechanical system. This was done using a computer program called "MECH-1". The program was developed using the FORTRAN language and was used to design a mechanical system for a machine tool.
